

## **EtherWAN Environmental Compliance Standard**

EtherWAN is aware of its responsibility to protect people and environment and provides the legal requirements regarding development, composition, and recycling as a minimum requirement for its own environmental product requirements.

To ensure that all third parties in supply relationship with EtherWAN fulfil these requirements, we apply the EtherWAN Environmental Compliance Standard. This standard needs to be observed for all delivery items that remain in EtherWAN products. It does not release from applicable international, European, and national legal regulations.

The EtherWAN Environmental Compliance Standard applies to all deliveries of products by the supplier to a company of the EtherWAN as well as to all work and services provided by the supplier on behalf of EtherWAN.

### **1. Substance prohibition list and legal basis (*Annexes I and II*)**

The EtherWAN Environmental Compliance Standard contains only bans and restrictions of substances that generally apply to articles or specifically to articles of the electric and electronic industry. The standard is based on the applicable European legislation as well as selected national, regional, or international regulations that are applicable to EtherWAN products and markets. Prohibitions that relate purely to the use of substances or preparations are not part of this standard. The content and the update of the substance list are based on the international standard for products of the electrical industry IEC 62474 (see: <http://std.iec.ch/iec62474>). Substance prohibitions, thresholds, and applications relevant to EtherWAN products are included in Annex I. A summary of the legal basis for the substance prohibition list is provided in Annex II. Relevant changes compared to the previous edition are marked in blue. If applicable, substance requirements that go beyond European legislation are marked in red.

### **2. General requirements**

Requirements that must be fulfilled for all delivery items of the supplier at the time of delivery to EtherWAN.

#### **2.1 Substance prohibitions and substance restrictions**

All substance bans and restrictions listed in Annex I are not contained or only below the specified limit value in all delivery items of the supplier at the time of delivery. The respective valid version of the standard is

available on the respective EtherWAN website under " About EtherWAN > Compliance " (see: <https://www.etherwan.com/about-etherwan/compliance> ) and is made available to the supplier on request. The supplier will be informed by EtherWAN of any changes compared with the previous edition.

## 2.2 Legal Scope and Exceptions

The substance requirements of Annex I are to be fulfilled for all delivery items, that remain in EtherWAN products, regardless of being within the scope of the regulation or not. The requirements are also fulfilled by compliance with valid exceptions of the respective regulation and provided that the supplier can certify compliance with the increased limit values for each delivery items upon request.

## 2.3 Minamata Convention and Mercury

For mercury and mercury compounds, the requirements of the Minamata Convention of October 10, 2013 (BGBl. 2017 II p. 610, 611) and Regulation (EU) 2017/852 on mercury must be considered. The supplier ensure compliance with the requirements for mercury and mercury compounds in products and manufacturing processes in accordance with the law.

## 2.4 Information obligations of the supplier in case of changes

The supplier is obliged to inform EtherWAN immediately, if delivery items no longer comply with the requirements of the EtherWAN Environmental Compliance Standard due to changes of the material composition. Should the supplier become aware that limit values of delivery items have been exceeded, he shall immediately send a product-related notification to EtherWAN. In such cases, notifications shall be sent to: [ew-greenproduct@etherwan.com.tw](mailto:ew-greenproduct@etherwan.com.tw)

## 3. **Additional requirements**

Information and documents to be provided to EtherWAN upon request.

### 3.1 RoHS Supplier Declaration (Annex III)

Upon request, a product- related declaration in accordance with the Directive 2011/65/EU (RoHS) and associated supplements must be provided to EtherWAN. The supplier shall verify the conformity with the substance requirements and applicable valid exemptions by RoHS supplier declaration that meets the requirements of technical documentation in accordance with EN IEC 63000.

### 3.2 Information according to Article 33 of the REACH Regulation(Annex III)

Information corresponding to Article 33 of the Regulation (EC) No 1907/2006 (REACH) on the candidate list of substances of very high concern (SVHC) are to be complied within the respective current version of the list and the relevant information must be forwarded to EtherWAN as required by law or provide upon request. The current candidate list is available on the website of the European Chemicals Agency (ECHA): <http://echa.europa.eu/candidate-list-table> The supplier note, that the candidate list is regularly updated.

### 3.3 Declaration according to China RoHS II

Upon request, a declaration in accordance with Management Methods for the Restriction of the Use of Hazardous Substances in Electrical and Electronic Products, Order No.32 according to Previous Names of Authorities, including First Management Catalog ("China RoHS II") must be provided to EtherWAN. The information is divided into 2 phases with different requirements to provide information: Phase I with declaration table and recommendation for an EFUP value in accordance with the SJ / T 11364-2014 standard and Phase II with a China RoHS supplier declaration in accordance with the GB / T 36560 standard -2018 IDT IEC 63000. The information provided on China RoHS II must be consistent with the information provided under the RoHS Directive.

**Annex I: Substance prohibition list of the EtherWAN Environmental Compliance Standard**

Substance / Substance group	CAS-No.	Threshold per Application
<b>Aliphatic halogenated hydrocarbons e.g.</b> FC, HFC, HFBC (H) HFC Halones Sulphur hexafluoride (SF6)	2551-62-4	general prohibition in articles

## Confirmation of the EtherWAN Environmental Compliance Standard

The supplier guarantees to comply with the requirements specified in the respectively valid EtherWAN Environmental Compliance Standard and at the time of delivery in its delivery items, the substances specified in Appendix I are not contained or only below the required limit values.

The current version of the EtherWAN Environmental Compliance Standard can be found on the respective EtherWAN website under "About EtherWAN > Compliance" or <https://www.etherwan.com/about-etherwan/compliance> or will be made available to the supplier upon request.

## RoHS/REACH Supplier Declaration

**EtherWAN supplier statement according to DIN EN IEC 63000 and RoHS Directive 2011/65/EU, incl. (EU) 2015/863, as well as Article 33 of REACH Regulation (EC) No. 1907/2006**

The supplier ensures that the amount of limited substances according to Directive 2011/65/EU, incl. delegated Directive (EU)2015/863, contained in the homogenous materials of the substances listed here, is below the permitted limits. Should there be any applicable exemptions, they are to be explicitly enumerated in the annexed "REACH/RoHS Substance list".

According to Directive 2011/65/EU and (EU) 2015/863, the following limitations currently apply:

Lead (0.1%)	Polybrominated diphenyl ether (PBDE) (0.1%)
Mercury (0.1%)	Di(2-ethylhexyl)phthalate (DEHP) (0.1%)
Cadmium (0.01%)	Butylbenzylphthalate (BBP) (0.1%)
Hexavalent chromium (0.1%)	Dibutylphthalate (DBP) (0.1%)
Polybrominated biphenyls (PBB) (0.1%)	Diisobutylphthalate (DIBP) (0.1%)

Furthermore, the supplier ensures that the information provided to us has been assessed using a qualified evaluation method in the sense of DIN EN IEC 63000.

### Information corresponding to Article 33 of the REACH Regulation (EC) No 1907/2006

The supplier confirms that the materials listed herein do not contain any SVHC from the current candidates list or these substances have been explicitly listed in the "REACH/RoHS Substance List". The up-to-date list of candidate substances can be found at <http://echa.europa.eu/de/candidate-list-table>.

Should the supplier gain knowledge of a limit exceedance of his delivered goods after the fact, he must immediately send a product-related notice to above contact address.

### Confirmation of substance requirements for 2011/65/EU, incl. (EU)2015/863 and (EC) No. 1907/2006
