EASYCELL-CDT

EasyCell HexaCloud VPN Credit

Overview

EASYCELL-CDT provides 2GB of VPN data per credit, allowing access to **HexaCLOUD VPN & HexaCLOUD Connect** features that are ideal for managing large-scale networks or establishing point-to-point connections for remote device access.

Stay connected and in control with HexaCLOUD VPN Credits.

HexaCLOUD Connect (Point-to-Point) allows you to reach and control smart devices connected to your EasyCell device via the HexaCLOUD RMS. This allows you to connect to your devices **without** a public IP or additional VPN service. Perfect for managing PLCs, Industrial PCs, CCTV cameras, and more.

- Establish **Point-to-point** connections to remote devices connected to your EasyCell
- Add devices to your EasyCell's network via our "Quick Connect" auto-scan or manual input
- View recent remote access history logs and detailed device information

HexaCLOUD VPN (Point-to-Network) Simplifies the management of large-scale networks. Reach multiple endpoints without the need to configure different protocols or dedicated VPN servers. It includes access to:

- **VPN Tunnels** - Allows you to securely access multiple endpoint devices via encrypted connections
- **VPN "Quick Connect"** - Acts as a hybrid between Remote Access & VPN hub features on HexaCLOUD. Allows easy setup of an **OpenVPN network** without the hassle of configuring different protocols for individual devices, simplifying the process of establishing secure connections for troubleshooting & management of multiple devices.
