

EL8020 Series

Hardened 10/100/1000BASE-TX to 100/1000 SFP Media Converter

Overview

The EL8020 Series provides media conversion between 10/100/1000BASE-TX and 100/1000 SFP Fiber. Built specifically for mission critical applications in harsh environments, the EL8020's hardened design features high shock & vibration resistance, electrical noise immunity, wide operating temperature range from -40 to 75°C (-40 to 167°F), and aluminum housing. With two power inputs, link down alarming, Link-Fault-Pass-Through and a wide range of fiber connectivity options, the EL8020 is the ideal media converter for environments where connectivity is crucial.

Spotlight

+ Full Gigabit bandwidth and Jumbo frames + Hardened Grade

10/100/1000BASE-TX and 100/1000 SFP Ethernet transmission conversion

1000Mbps Full duplex and full wire-speed forwarding rate

Jumbo frames up to 10K bytes to increase throughput and transmission efficiency

Supports -40 to 75°C (-40 to 167°F) operating temperature

Redundant power inputs on terminal block connector

Supports DIN-Rail mounting

+ Port Failure Alarm

Relay alarm configured by DIP switch to notify users when power fails or link is down

+ Link-Fault-Pass-Through (LFPT)

Provides constant monitoring of the links connected to the media converters

If a copper or a fiber link fails, the media converter will pass the fail state on throughout the link, disabling the fiber link and the copper link on the opposite end
